

AIF Development Services invests in property developments/ brown field developments in attractive locations across south Germany.

AIF DEVELOPMENT SERVICES

DEVELOPER

AIF Development Services is the development line of AIF Capital Group. Specializing in the revitalization and reutilization of different types of properties, the company aims to maximize the development potential and breathe new life into each property; portfolio and conversion properties.

The broad range of services includes the development and structuring of investment products as well as ongoing fund-, portfolio- and asset-management.

INVESTMENT STRATEGY

AIF Development Services GmbH invests in property developments in attractive locations across south Germany with a draw-down area of 50,000+ inhabitants. With existing equity capital commitments, investments can be realized without the need for external financing. Transparent and efficient decision-making channels also enable a streamlined transaction process.
